Lahiru Yasas

**Artificial Intelligence | Machine Learning | Data Analytics | Computational Biology .**

Daejeon, South Korea | +82 10-5852-2584 | yasaslahiru1993@gmail.com
LinkedIn: linkedin.com/in/lahiru-yasas

## PROFILE

AI and Data Science researcher pursuing dual Master's degrees in Pharmaceutical Sciences and Artificial Intelligence. Experienced in Python, PyTorch, machine learning, deep learning, and large-scale data analysis. Skilled in predictive modeling, reproducible AI experimentation, and model evaluation, with a strong interest in generative AI, computer vision, diffusion models, GANs, and transformer-based image analysis.

## EDUCATION

### M.S., Pharmaceutical Sciences (Drug Targeting)

*— Chungnam National University, Daejeon, Korea* 2024 – Aug. 2026 (expected)

- Focus: data-driven drug discovery; hepatic clearance prediction; bioactivity modeling. Thesis completed and defended.

### M.S., Artificial Intelligence

*— University of Moratuwa, Sri Lanka (online)* 2023 – Dec. 2026 (expected)

- Focus: data Analytics, Machine Learning , Deep Learning, Data Mining, Mathematics, AI. Thesis completed and defended.

### B.Sc., Physical Science *— University of Sri Jayewardenepura, Sri Lanka* 2014 – 2017

- Mathematics, Computer Science, and Statistics.

## RESEARCH EXPERIENCE & PROJECTS

### Research Intern, Dept. of Biomedical Mathematics

***— Institute / College of Basic Science, Daejeon, Korea*** 2025 – 2026

- Computational methods for hepatic clearance prediction using intrinsic clearance.
- Extrapolation using structural information: hepatic clearance correction via a modified parallel-tube model. *(Basis of award-winning poster.)*
- Novel preprocessing technique based on active-site concepts and SMILES length for efficient deep-learning bioactivity prediction. *(Ongoing.)*
- Dynamic knowledge-graph-based travel-plan extraction (Knowledge Graphs based project).

## PUBLICATIONS & PRESENTATIONS

- **Yasas, L.** *"Extrapolation Using Structural Information: Hepatic Clearance Correction via a Modified Parallel-Tube Model."* Poster presentation, Pharmaceutical Society of Korea (PSK) Fall Convention, 2025. **— Best Poster Award.**

## TECHNICAL SKILLS

**Programming & Data:** Python (Pandas, NumPy, Matplotlib), R

**Methods:** Machine learning / deep learning, statistical modeling, pharmacokinetic (PK) modeling, cheminformatics (SMILES), data analysis & visualization

**Domain:** Deep Learning, Machine Learning , Data Engineering, Generative AI , Data- driven drug Discovery

## TEACHING & PROFESSIONAL EXPERIENCE

**Teacher (Mathematics & ICT)** — *Lyceum International School, Sri Lanka* 2022 – 2023

**ICT Assistant Lecturer** — *Gothami College, Colombo* 2020 – 2022
*Database management and data analysis instruction.*

**Visiting Lecturer (Mathematics for IT)** — *Advanced Technological Institute, Sri Lanka* 2019 – 2020

## LANGUAGES

**English** (professional) **Korean** (basic – developing) **Sinhala** (native)
