HAQUE KHANDOKER MOHD MAZIDUL (Jibon)
Developer Manager at Sanion Co (sanion.com)

PROFILE

Design and developing embedded system software and hardware with reliable quality and performance.

Find some of my project works below
Present work : Sanion Co South Korea. www.sanion.com

PAST ACTIVITIES

Iponics Bangladesh Ltd – VXML Software Development under Linux Platform from December 01, 2005.

Powertech - Embedded software and hardware development, design, implementation and manufacturing process management from May 01, 2006

Energypac Engineering Ltd – As a Developer since 2013 to 2022. www.energypac.com.bd

Address: 18 Bongwha-ro, Building 109, Apartment 204 (Dream Park Oullim Complex 1),
Incheon, Seo-Gu, 22657, +82 10-4201-8399

TECHNICAL SKILLS

Embedded System and Firmware:
Experienced on developing and designing Embedded system hardware and software based on Atmel, ST, Ti and ARM Microcontrollers in C, C++ , assembly and Python language.

Example Projects:
1. Solar RMS IoT Controller. Please check link (https://github.com/jibonaronno/solar2)
2. Ventilator and Safety Controllers for BTS Tower. Please check images for reference :

3. Industrial Automations.
